General Treatment Products Bypass / Filter Feeders in 1, 2, 5 & 10 gallon flat or dome bottom models, easy "add-in-field" pleated filter capability, optional quick closure or high pressure versions, a tough oil based enamel paint and the best warranty on the market, makes our feeder the choice of industry professionals.

Bypass / Filter Feeders

Versatile by design, "GTP" standard feeder with 3" bolted closure is service ready at 300PSI/200°F and can be order as "HP" with a fill funnel and valve at no extra charge. Optional low pressure "QC" 3 1/2" quarter turn closure is a preferred choice for addition of chemical and ease of servicing. (200PSI/200°F)

Our latest edition to the feeder family is the "All PVC Bromine Feeder". These convenient and versatile feeders are easy to open and have many standard sizes to choose from.

Complete you feeder installation, try our valve packages, pleated or sock filters, "Easy Fit" hose assemblies, flow indicators, mounting straps or tabs, chemical resistant epoxy coating and air release valves.

Bromine Feeders

So take advantage of the versatility and durability of "GTP" Feeders. With the best warranty in the industry, make your next choice, a "GTP" Feeder. Please contact us, or your local rep. for price and availability.
