GTPConnect™ is built on simple plug and play features give you immediate start up with no hassles. Plug it in, attach the ethernet cable and set you IP address and enable your controller built in V-Touch. General Treatment Products will help do the rest.

Connect-CELL is used when you don't have a local Ethernet connection and you want to monitor your controls from anywhere. **Connect-CELL** comes with Verizon 4G Wireless M2M cellular modem, power supply(s), dual antenna, NEMA 4 enclosure and all the cables needed for the options purchased. Simply plug in set your IP address(s) and enable the complimentary factory Web-service (V-Touch). Contact us and we will set up the rest.

Connect-WIFI is a 4 port wireless hub used when you can get a LAN connection but don't want to run the wires or if you want to monitor your controller locally from your phone, laptop or tablet. **Connect-WIFI** comes standard with password protected 300Mbps 4-port wireless router, NEMA Enclosure, antenna and all the cables needed for the options purchased. Standard configuration allows local hook up with controller and handheld device.

Internet connection with Connect-WIFI will need local IT support.
